2. IRI may reject any or all bids if such is within IRI's interest.
3. The Bidder's initial bid should contain the Bidder's best offer.
4. IRI reserves the right to make multiple awards or partial awards if, after considering administrative burden, it is in IRI's best interest to do so.
5. Discussions with Bidders following the receipt of a bid do not constitute a rejection or counteroffer by IRI.
6. IRI will hold all submissions as confidential and shall not be disclosed to third parties. IRI reserves the right to share bids internally, across divisions, for the purposes of evaluating the bids.
7. If IRI continues to require the goods and services and the price remains reasonable and within market norms, resulting contract may be renewed each year for up to 5 years with 30 days' notice to the Contractor. Bidder must establish any price increase for each renewal year in the initial bid.
8. Bidders confirm that the prices in the bid/proposal/application/quote have been arrived at independently, without any consultation, communication, or agreement with any other bidder or competitor for the purpose of restricting competition.
9. By applying to this IFB, applicant is certifying that if it is awarded a contract, none of funds payable under the resulting contract will be used to (1) procure or obtain, extend or renew a contract to procure or obtain; (2) enter into a contract (or extend or renew a contract) to procure; or (3) obtain the equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system in compliance with the National Defense Authorization Act. Evaluation and Award Process:

1. IRI may contact any Bidder for clarification or additional information, but Bidders are advised that IRI intends to evaluate the offers based on the written bids and reserves the right to make decisions based solely on the information provided with the initial bids. IRI may but is not obligated to conduct additional negotiations with the most highly rated Bidders prior to award of a contract, and may at its sole discretion elect to issue contracts to one or more Bidders.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there were a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Bidder does not accept the correction, the offer will be rejected.
3. IRI may determine that a bid is unacceptable if the prices proposed are materially unbalanced between line items or sub-line items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A bid may be rejected if IRI determines that the lack of balance poses an unacceptable risk.
4. IRI will conduct a source selection based as follows:

Best value: IRI intends to make an award to the responsible Bidder based on the following evaluation factors:

Technical evaluation,	60%
<i>Quality of make, model, age and condition of vehicles (as determined by photos and details of each vehicle)</i>	40%
<i>Number and variety of vehicles available upon request</i>	20%
Price	40%
Total	100

IRI intends to evaluate bids in accordance with these factors and make an award to the responsible bidder whose proposal is most advantageous to the program.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.
